Creating a Strong Vision for the Future

We aim to provide services to the improvement of everyone's quality of life by creating innovative mobile technology.

:: The Origin of "Sophia Cradle®"

Sophia
"Sophia" is a Greek word with a variety of meanings, such as knowledge, reason, prudence, and intuition. The English equivalent is "wisdom," essential for living a fulfilling and peaceful life.

Cradle
The word "cradle" has many symbolic meanings, and we especially tie its significance to the "cradle of civilization" and many other places of origin.
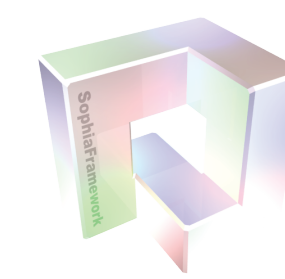

"Sophia Cradle" signifies "the cradle of knowledge." We named our company "Sophia Cradle" with the idea of creating and fostering products on the basis of intelligence and sensibility, and with the hope that it will be a place where new ideas start and flourish.

## :: Main Business

Solutions for mobile phone industry:
1. Research and development of basic software technology
2. Manufacture and sales of software products
3. System planning and integration

:: Main Products

◇ **SophiaFramework®**
SophiaFramework is a BREW C++ framework that comes with a library that contains extendable graphical user interface (GUI) objects and data processing classes.

◇ **SophiaCompress®(Java)**
SophiaCompress(Java) is optimizing software for Java programs, which improves the execution format and minimizes program's size.

◇ **SophiaCompress®(BREW)**
SophiaCompress(BREW) enables the compression of compiled Binary Runtime Environment for Wireless (BREW) applications at a rate of 50%.
